NOTE: This map is not a legal document. The Metropolitan Urban Service Areas (MUSA) shown are compiled from each community's 2040 and 2030 comprehensive plan and subsequent plan amendments. For those communities where a 2040 comprehensive plan has not been reviewed and incorporated into GIS, data reflects their 2030 comprehensive plan. Areas defined as "Undesignated MUSA" designate areas where an agreed upon acreage between the community and the Council will be added to the 2020 MUSA. For exact MUSA information, please contact the community.
